Sequence 2, Application US/09398412B

Patent NO. 6680380

GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: Timans, Jacqueline C.
APPLICANT: Timans, Jacqueline C.
ITILE OF INVENTION: Nucleaic acids encoding mammalian interleukin-lzeta, related reage TITLE OF INVENTION: Nucleaic acids encoding mammalian interleukin-lzeta, related reage TITLE OF INVENTION: NUMBER: US/09/398.412B

CURRENT APPLICATION NUMBER: US/09/398.412B

SOPTMARE: PATENTING DATE: 1998-09-17

SEQ ID NOS: 15

SEQ ID NOS: 15

LENGTH: 218

TYPE: PRT
                                                                                                                                                                                                                                                                                                                                                                                                                                                                  RESULT 1
US-09-398-4128-2
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              113
